

29 June 1963

MEMORANDUM FOR [REDACTED]

1. Either Sid Gottlieb or Gene Kiefer (I think Sid) was going to send me up some letters for the members of the [REDACTED] which would gently let them off the hook and allow [REDACTED] to pick his own people.

2. Gene Kiefer was to give me a memorandum of information on electrostatic discharges which fogged some of our recent exotic film, and the possible failure to make appropriate pre-launch checks. Please check on that.

3. Please give me a draft letter to Shef Edwards re his retirement and long service.
